Fiona Thorn Trivia Answers

1. How do you deal with a Cave Bodkin?

Cave Bodkins are small, scaly creatures with big, bright eyes. They are usually found in damp, dark underground areas. They are very social and are known for snaking their way through tight spots. Dealing with a Cave Bodkin is easy, as long as you're friendly.

2. What does Ugly Anne smell like?

Ugly Anne is a type of explosive invented by McClane. It is known for green slime followed closely by a huge tower of green flame. It is also known to smell like burning garbage. ICK!

3. What happens if you're a victim of The Carapacem Spell?

The Carapacem Spell is old, dark magic. It leaves its victim paralyzed, though inside they remain aware. They can still feel hungry and thirsty, but they can't move or talk. In fact, they appear in all ways to be dead, except for a shallow bit of breath.

4. When do you need a Writ of Allowance?

You need a Writ of Allowance if you are a young person, just learning to use explosives.

5. What does Ulli fruit taste like?

It smells like a dead animal rotting in a pile of manure. It tastes even worse than that.

6. What is a Sarastro?

A Sarastro is a magical flute, enchanted to allow the user to bind their soul to the instrument. This is important, especially if you were a bad guy trying to hide or be sneaky.

7. If you had a pet ogre, what would you name him?

8. What does a flickerfawn look like?

A flickerfawn is a magical creature that lives in The Enchanted Wood with the fairies. Flickerfawns look just like fawns we know, but are a little smaller and very shy. They are special because they can camouflage themselves to look just like their environment. They are often missed because they are so good at hiding, even in the open.

9. If you had a superpower, what would it be?

10. Which is bigger—a Sunflower Fairy or a Yarrow Sprite?

A Sunflower Fairy is much bigger than a Yarrow Sprite, though they are both very small. :)
